Get acquainted with the high level of the Finnish education and Innovation Pedagogy by Turku UAS

The Innopeda® Certified Institution training covers the principles of Innovation pedagogy, starting from the organization's strategy and followed by all educational activities including teaching, learning, assessment, curriculum design, RDI, learning environments and internationalization.

Working towards a sustainable future is at the core of an Innopeda® Certified Institution.

An educational institution aiming to be accredited as an Innopeda® Certified Institution will follow a quality process whereby they develop various aspects of the institution by following the guidelines of the SIQA document and reviewing the success of the implementation in collaboration with Turku UAS Innopeda® experts.

The guidelines must be adopted and adapted to the local context and the Innopeda® pedagogical strategy should be integrated into all operations of the educational institution.

Innopeda® Certified Institution:

1. Creates a roadmap for the institution to implement Innopeda® as a pedagogical strategy
2. Provides the institution a basis for the audit through implementation of the actions listed in the development plan

3. Provides the institution an opportunity to follow the SIQA framework for quality assurance in implementing Innopeda®
4. Is allowed to fully utilize the Innopeda® trademark (a separate brand handbook is provided)

The certification follows the Standards and Guidelines for Innopeda, adopted from the Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG).

SIQA is a tool for teachers and educational institutions to evaluate their processes, implement the approaches of innovation pedagogy, design a development process to ensure the quality, and the development of innovation pedagogy.

The certification follows the successful completion of the following training entities:

1. Innopeda® EduTour visit in Finland
2. Innopeda® for Managers
3. Innopeda® for Teachers
4. SIQA Audit
